FIS-PISTE REGULATIONS

- 1. RESPECT FOR OTHERS:** every person partaking in Winter sports must behave in such a way that he does not endanger or prejudice others.
- 2. CONTROL OF SPEED AND TECHNIQUE:** all persons partaking in Winter sports must remain in control of their movements. They must rely on their personal skills and abilities during downhill skiing and take into account the terrain, snow and weather conditions as well as the number of skiers on the slope.
- 3. CHOICE OF ROUTE:** skiers partaking in Winter sports must select his route in such a way that he does not endanger skiers or snowboarders ahead.
- 4. OVERTAKING:** skiers may overtake other skiers above or below, on the right or the left, but must leave enough distance between themselves and other skiers to allow them to maneuver properly.
- 5. ENTERING, STARTING AND MOVING UPWARDS:** every skier who wants to enter a slope or reenter it after making a stop, must look up and down the hill to ensure that this can be done without causing a hazard to himself or others.
- 6. STOPPING ON THE PISTE:** all persons partaking in Winter sports must avoid stopping at blind corners or narrow or enclosed places unless they have to. If they fall in such areas, they must do their best to leave the spot as quickly as possible.
- 7. CLIMBING AND DESCENDING ON FOOT:** anyone walking up or downhill must keep to the edge of the slope.
- 8. RESPECT FOR SIGNS AND MARKINGS:** all persons partaking in Winter sports must pay attention to and follow the markings and signs on the slopes.
- 9. FIRST-AID:** in the event of an accident, all persons partaking in Winter sports are required to provide assistance.
- 10. IDENTIFICATION:** every person partaking in Winter sports, whether a witness or personally involved in an accident, is required to provide their personal details in the event of an accident.

SKI PISTES

easy medium difficult floodlit

Ski pistes are marked with coloured signs to indicate the level of difficulty. These signs also display the slope number. Ski pistes and safe ski areas are marked and prepared as far as possible. They are also monitored and protected against atypical alpine hazards, especially against avalanches.

SKI ROUTES / OFF-PISTE

Ski runs are marked by diamond-shaped signs, which indicate the route. The routes are only partially groomed; they are not monitored and are protected against avalanche only in the vicinity of the signage.

Off-piste: not groomed, not controlled, not marked, not secured!

GENERAL TERMS OF BUSINESS AND INFORMATION

GENERAL

The ski passes are non-transferable and must be presented when requested by the inspection personnel. No subsequent exchange, extension or postponement of the validity period is permitted. The individual services covered by the ski passes are provided by legally independent companies. The business entity selling the ski passes is acting as a representative of other companies. The respective company is responsible for providing individual services and for compensation in the event of any incident.

The ski area on the Austrian and Swiss side is serviced by different companies. Please note that our counter staff can only issue discounted ski passes on presentation of the relevant documents (guest card, photo ID). In all other respects, the general terms and conditions are applicable to individual cable cars/lifts.

NATURAL EVENTS

No refund can be offered in the event of an early departure or the closure of lifts or pistes due to events outside of the influence of the company (bad weather, wind, natural events etc.).

REFUNDS FOR ACCIDENTS:

Following ski accidents, the purchase price for ski passes with a period of validity of at least two days can be refunded pro rata for a processing fee of 11 Euro.

The refund of the purchase price requires the return of the ski pass, as well as the report from the ski rescue.

A refund will only be granted when the pass is no longer to be used after the accident and is limited to the days following the day of the accident. Refunds for ski passes of those accompanying a person involved in an accident are not permitted.

REPLACEMENT FOR LOST OR DAMAGED SKI PASSES:

For lost or damaged ski passes with a period of validity of at least three days, a new ski pass can be issued for a processing fee of 11 Euro (plus a 5 Euro deposit). To get a replacement, you are required to present a revocation document and official photo identification. If the ski pass had already been used on the day that the notification of its loss was made, the validity period of the newly issued ski pass is limited to the following days. Defective ski passes (without visible external damage) can be replaced only upon presentation of proof of purchase.

LIMITATIONS ON THE NUMBER OF TICKETS

The company reserves the right to limit the number of all or some tickets it sells, if the snow coverage is poor or ski pistes are overcrowded. Prices subject to modification, including on a daily basis, especially during events.

TRANSPORTING CHILDREN BY CHAIRLIFT

Children less than 1.10 m tall can only be transported if they sit on an adult's lap. Children from 1.10 m to 1.25 m tall can be transported by chairlift only if accompanied by an adult (in the adjacent seat).

THE TRANSPORTATION PARAGLIDERS, SKIBOBS ETC. and other items of bulky sports equipment on the chairlifts is prohibited. The transportation hang-gliders is not possible. Take-offs, landings and flying past (either on or in the area of the open pistes and cableway facilities) is not permitted.

TRANSPORTATION OF DOGS

wearing a muzzle and leash is possible in the Silvrettabahn, Fimbabahn and Pardatschgratbahn. Transporting dogs on chair lifts is prohibited. Free-roaming dogs are not allowed on the slopes.

KEY-CARDS

All ski passes for 2 days and for longer periods are issued in the form of a key card upon payment of a deposit of € 5.00. Undamaged key cards can be returned and the deposit refunded at all cable car counters, at the vending machines at the Silvrettabahn and Pardatschgratbahn lift valley station and on a voluntary basis, at accommodation establishments, sports shops and restaurants.

MISUSE OF SKI PASSES – IT'S NOT WORTH IT!

Tickets not purchased from the counters and tickets reported as lost will be blocked by the barcode ticket readers. To prevent any misuse of ski passes they are regularly checked throughout the ski resort! Anyone found on the ski area without a valid ski pass will face the following consequences:

1. Purchase of a day pass at the full standard price.
2. A fine double the amount payable for the daily ski pass (standard price) will be charged.
3. A report will be issued due to suspicion of subreption of service (§ 149 StGB) or suspicion of fraud (§ 146 StGB).

CLOSE OF OPERATIONS, PISTE CLOSURE

Please note the closing times for the cable cars and ski lifts. After shut down Samnaun and Ischgl are only accessible via road (bus, taxi,...). Please be aware of weather-related closure of facilities and limited skiing times, in particular at non-peak periods during the winter season.

PLEASE NOTE

Using the ski area after the pistes have closed is extremely dangerous and is therefore strictly prohibited. During this

period there are regular avalanche blasting operations, and ski pistes are also tended to (in parts also using winch cables which are not visible to skiers) and the pistes are not inspected by the piste service teams at that time.

IT'S YOUR NATURE TOO!

Skiing down the northern ridge of the Piz Val Gronda (towards support 2) is prohibited due to the growth of rare plants here.

SKI TOURING

CAUTION Ski touring on the slopes outside the operating hours (5 pm to 9 am) is not allowed. Ascending the piste is dangerous during skiing periods too and is to be avoided where possible.

ROAMING FEES IN SWITZERLAND

Please note: The new EU roaming regulation does not apply in Switzerland!

VIDEO MONITORING

DIGITAL RECORDING
We would like to point out that photos are taken for monitoring purposes at all check points in the Ischgl and Samnaun ski areas. The buildings of the Silvrettaseilbahn AG are monitored by CCTV.

DATA PROTECTION

For legal information on the protection of your personal data, please see www.ischgl.com/datenschutzsilvrettaseilbahn

With the Ischgl Skyfly daredevils glide on a wire cable, 50 metres above the ground, down the valley to Ischgl.

Speeds of up to 85 km/hour are achieved on the 2 kilometre route. Two track ropes run parallel to one another from the intermediate station for the Silvrettabahn A1 (1683m) above the two intermediate stations, and there are three route sections on the roof terrace for the valley station of the 3-5 Pardatschgratbahn A3 (1376 m). This means that 2 people can 'fly' into the valley and be next to one another.

The second route section proceeds beneath the 'Kitzloch' suspension bridge and the 'Fimbabahn' through the spectacular Kitzlochklamm. Adrenaline and adventure are guaranteed.

Ski equipment can be taken with you during the flight.

Details Altitude difference: 307 m

Length: 2 km

Maximum distance from the ground: 50 m

Speed: up to 85 km/hr

For opening hours take a look at www.skyfly-ischgl.at

ISCHGL SNOWPARK

Park area 1 „All Fun“

Lots of boxes and fun tubes await freestyle beginners, motivated kids and older snow park novices. The roller jumps are perfect for gaining that first air-time experience or for knocking out a stylish 180 or 360 degree turn.

Park area 2: „Improve your skills“

The obstacles have been selected and aligned so that both advanced and (semi) professional snowboarders and free-skiers can develop their skills here. There is also an air-bag nearby for those wishing to develop or perfect their rotation skills without risking crashing into the snow. At the park exit, the Parkbase is the ideal place to chill out with music and recliners.

Did you know that ...

... 36 piste machines prepare the slopes every night to guarantee you a perfect skiing experience?

... every piste machine costs approx. € 400,000?

... our lifts can transport some 94,671 people per hour and were used 25.8 million times last Winter?

... approx. € 395 million has been invested in improving our ski resort over the last 15 years?

... our investments directly contributes to permanent employment for roughly 250 additional persons in other industries?

... for the purpose of this investment our shareholders have agreed to forgo the payment of dividends since the company was set up?

... lots of piste areas in the ski resort are mown and mulched, which has a very positive impact on the vegetation, image of the landscape and recreational value?

... solar power and heat recovery systems at the Silvrettaseilbahn AG lift company save some 80,000 litres of heating oil per year?

... most of the pistes in the ski resort are used as pastureland during the summer months – and often as 'organic pastures' – with more livestock here than before the opening of the ski resort?

... we use 300 tons of manure supplied by the surrounding farms annually for fertilization and vegetation of the slopes and downhill runs, and that we plant new trees every year?
